

Plug-computers

Definition – Uses – Ecology – Ethics

Definition – Uses – Ecology – Ethics

Small computer
Low tech
Low cost
Net managed

Definition – Uses – Ecology – Ethics

Marvell Sheevaplug

1,2 GHz processor
512 Mo RAM
512 Mo Flash

2 USB
1 Ethernet
1 SDIO

~ \$99

Definition – Uses – Ecology – Ethics

Always plugged
Small Linux systems
Server softwares

Definition – Uses – Ecology – Ethics

Communication servers
Sharing servers
Network security

Definition – Uses – Ecology – Ethics

Datacenters,
ecologist's
nightmares

Definition – Uses – Ecology – Ethics

Sheeva plug : 3 - 6 Watts

PC : 300 - 600 Watts

Small Server : 800 Watts

Definition – Uses – Ecology – Ethics

Datacenters,
free-software
geek's
nightmares

Definition – Uses – Ecology – Ethics

Data control
Decentralised system
Real Internet philosophy

Plug-computers are a way
to take back the Internet

Host yourself !
